

Wait, Did China Just Take An Explosive Blockchain Lead?

Media Report

Posted on April 29, 2018 Source: Forbes

Onething Technologies, the cloud computing arm of Xunlei Limited, a leading cloud-based acceleration technology company in China, recently announced that it launched a high-performance blockchain platform called ThunderChain, which can concurrently conduct millions of transactions per second. ThunderChain is designed to realize confirmation and interaction among homogeneous chains and enable multiple transactions to be executed on different chains in parallel.
