

# Xunlei CEO shares insights on the future of blockchain

Media Report

Posted on Oct 12, 2018 *Source: HKUST*

Over 350 participants – including students, faculty members, and researchers from HKUST - attended an inspiring sharing on “The Future of Blockchain” delivered by Mr. Lei Chen, Chief Executive Officer of Xunlei Limited (Xunlei) and Onething Technologies. The session was organized by the HKUST Big Data Institute (BDI) on 12 October 2018, with a full house in attendance.

Explaining with a number of business case examples, Mr. Chen shared with the audiences that blockchain will create an entirely new business model on the internet. He believed that a new generation of business will begin very soon. “Blockchain has the great potential in realizing sharing economy. There is an open ecosystem in the blockchain businesses. As the strength of blockchain application comes from participants, with more and more people participating in the ecosystem, the blockchain businesses will grow rapidly and become more competitive,” said Mr. Chen.
