Xunlei Launched a BaaS Platform

Xunlei Limited (Nasdaq: XNET) launched a BaaS (Blockchain as a Service) platform, a high-performance blockchain technology platform based on the infrastructure of ThunderChain. With one-stop blockchain service solutions, it is designed to liberate enterprises and developers from complex technical issues in blockchain infrastructure and to drive innovation and productivity.

In the current stage, Xunlei's Baas Platform on ThunderChain covers five modules including application, access, service, key technology and resources module. The BaaS Platform claims to possess the following features to fully meet users' business-driven demands for blockchain applications:

- One-stop blockchain service solutions
- Resource-based pricing and cost-effectiveness
- User-friendly and
- Blockchain application interchangeability.
