

## Xunlei Launches Android Xunlei 8 APP

Media Report

Posted on June 21, 2023 Source: Sohu

On June 20th, Mobile Xunlei 8 was officially launched in Android app stores, marking a significant upgrade to the Mobile Xunlei after two years. The updated version features a one-tap search engine, improved privacy protection and an expanded cloud storage capacity of up to 12TB.

Through this upgrade, Xunlei has maintained its concise and clean visual UI while introducing a newly optimized layout. The search engine box has been enhanced in terms of proportion and functionality, enabling users to access desired resources more efficiently and intuitively. Further, Mobile Xunlei 8 allows users to personalize the homepage layout according to their individual preferences and habits. Additionally, Mobile Xunlei 8 also has enhanced its privacy settings by introducing a traceless browsing function that users can choose to enable or disable it at their discretion. Finally, Xunlei's annual subscribers can now expand their cloud storage space up to 12T, effectively alleviating storage shortage anxiety experienced by some users.

You may find Xunlei 8 APP in Android app stores or visit Xunlei's official website <https://mobile.xunlei.com/> to download it.
